ABOUT ME

Backend Software Engineer specializing in Python, Django, and Django REST Framework, building scalable APIs, asynchronous systems, and data pipelines, with practical experience in web scraping, automation scripting, and database optimization for production environments.

PROFESSIONAL EXPERIENCE

- Sabhyasha Retail Tech, Software Engineer II** July 2025 – Present
Ranchi, India
Design and develop scalable backend APIs and data pipelines for the Artisans' Wizard Seller App and Near Delight (XORA), implementing caching strategies, asynchronous services, and optimized database queries for high-performance backend systems
- Sparrow Softech Pvt LTD, Software Engineer** September 2024 – July 2025
Ranchi, India
Developed and maintained the official municipal websites for Rajasthan, Sujangarh, and Churu using Django and PostgreSQL. Managed large, complex taxation-related datasets and built secure backend systems for government operations and citizen services.
- beenaiT Solutions, Junior Full-Stack Developer** April 2023 – September 2024
Ranchi, India (Onsite)
Developed web applications for Scotland-based projects using MERN stack and Django, including Hospital management systems, billing services, and donation platforms, with a focus on full-stack development.
- Central Coalfields Limited, Intern** June 2023 – June 2023
Ranchi, India (Onsite)
Developed a real-time chat app using MERN stack

PROJECTS

- NDL Scraper – Automated Restaurant Data Ingestion System** 🌐, Python, Playwright, Django REST Framework, GCP
Independently designed and built an asynchronous Python restaurant data scraper achieving ~98% extraction accuracy and reducing Near Delight seller onboarding time from 1 hour to under 1 minute via automated data migration.
- Near Delight** 🌐, Python, Django REST Framework, MySQL, GCP
Developed backend APIs for an ONDC-based food delivery platform, building account/admin/product services, real-time notifications (Django Channels/WebSockets), and async email/SMS systems with caching, transactions, and Redis locks to prevent cache stampede.
- Artisans' Wizard** 🌐, Python, Django REST Framework, MySQL, GCP
Developed backend services for ONDC-based ecommerce platform using Django REST Framework and MySQL, built chatbot integrations, a centralized admin export system, and key backend features across accounts, admin, and product modules
- Municipal Tax Platforms (Sujangarh & Rajasthan ULBs)** 🌐, Django, PostgreSQL
Maintained and improved a legacy multi-ULB tax platform by debugging production issues, optimizing large SQL queries, adding new features, and supporting secure deployments and documentation for auditing and government compliance.

SKILLS

- | | |
|--|--|
| Backend
Django, Django REST Framework, Node.js, Celery / Message Queues, Signals, Threading, Caching, Redis, Distributed Locks | Frontend
React, Three.js, HTML, CSS, JavaScript, Tailwind CSS, Bootstrap |
| Database
PostgreSQL, MySQL, MongoDB | Languages
Python, JavaScript |
| Web Automation/GUI Automation
Cheerio, Puppeteer, Playwright, BeautifulSoup4, PyAutoGUI | Version control
Git/GitLab, Sourcetree |
| Tools
Docker, Postman, Figma, Trello/Jira, Canva | Cloud
Google Cloud Platform |

EDUCATION

- Dr. Shyma Prasad Mukherjee University, Master of Computer Application** July 2023
Percent(%) : 79.53
Ranchi, Jharkhand
- DAV Centenary College, Bachelor of Computer Application** October 2020
Percent(%) : 68.83
Faridabad, Haryana
